

# Baxter Street to E. Stonewall Street Wastewater Replacement Project

## *Lane and Road Closures Notice*

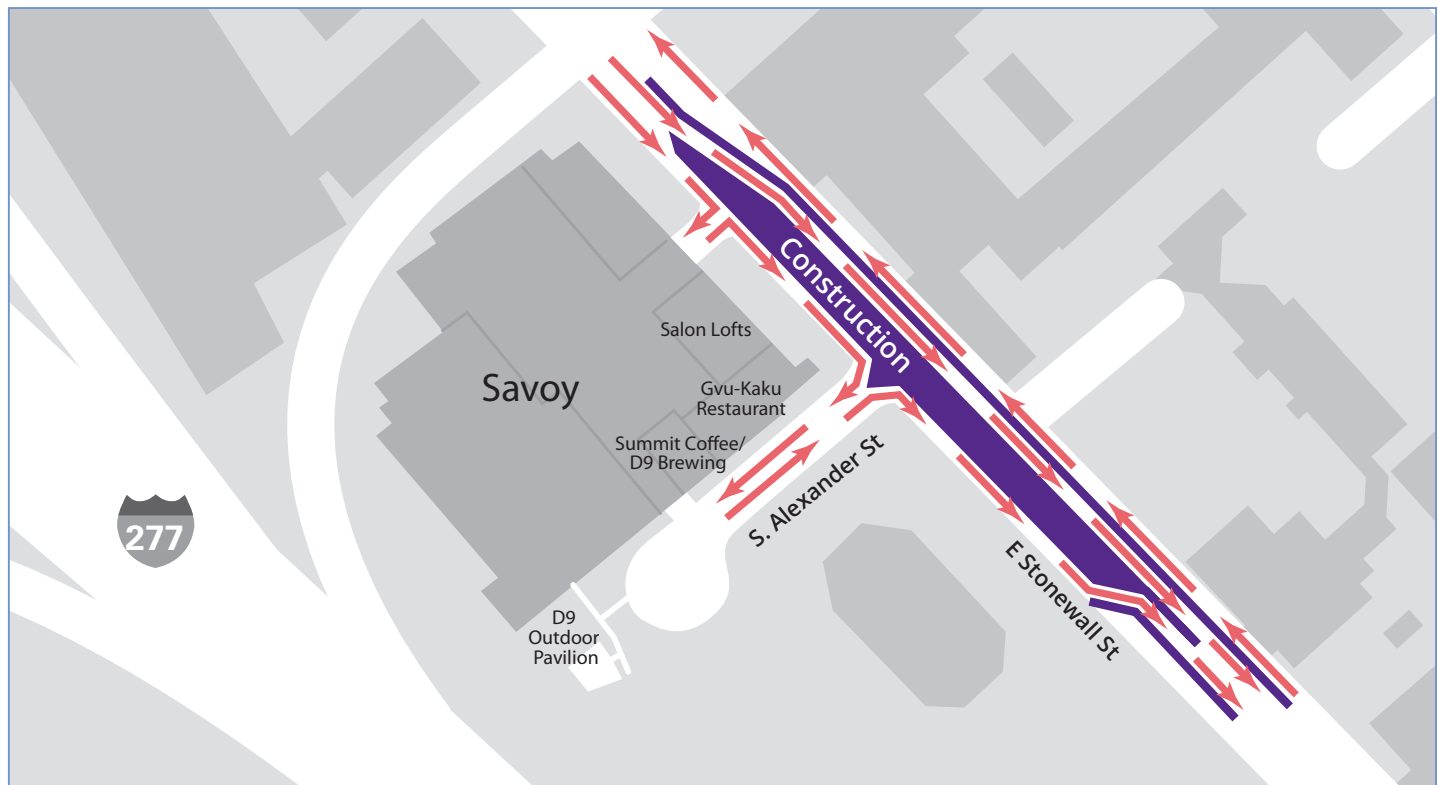

**WHAT:** Contractors for Charlotte Water will continue construction work for a wastewater pipe replacement project in the Uptown area that will expand the future capacity of the wastewater system in the growing central business district. **Part of this work requires lane closures on E. Stonewall Street with construction occurring in the street near S. Alexander Street.**

**WHEN:** Lane closures in this immediate area are expected to begin the week of August 30 and will be in place for approximately three months. Construction schedules are subject to change, due to weather and other conditions.

**WHERE:** This work takes place at the intersection of E. Stonewall Street and S. Alexander Street, adjacent to the Savoy Apartments building (650 E. Stonewall Street). Although there will be lane

closures on E. Stonewall Street, two-way traffic will be maintained (see map). Apartment residents and retail customers will continue to access the parking garage from E. Stonewall Street, as well as S. Alexander Street. Pedestrians and motorists should follow all traffic control signs around the work. Crews are working with local businesses to maintain access and to minimize the impact to operations.

**NEXT STEPS:** These closures are expected to be in place beginning August 30 through November. Overall project construction for phase 2 is expected to be completed in early 2022, although customers will see varying levels of activity based on their location. Please note construction schedules are subject to change, due to weather and other conditions.

**QUESTIONS:** For updates on the project, please visit the project website at [www.charlottewater.org](http://www.charlottewater.org), (click on "projects") for updates on progress. If you have questions, please contact project manager Bill Deal, (980) 722-0786, [wdeal@charlottenc.gov](mailto:wdeal@charlottenc.gov).
